Our mission is to empower medical facilities with high quality sterile supplies ensuring safety and excellence in patient care. Each product in our catalog reflects our commitment to delivering exceptional patient care solutions. Choose Onyx Care and join us in elevating healthcare standards and outcomes across Ghana.

SVD

Sterile Delivery Pack (SVD)

Our Sterile Delivery Pack (SVD) is a comprehensive kit designed for childbirth procedures. It contains essential items to ensure a hygienic and safe delivery environment. The pack includes a special EZ umbilical cord blade with double clamp combo for safe cord cutting.

Packaging : 16 Packs / Carton

CS-Pack

Sterile C- Section Pack

Our Sterile C-Section Pack is a comprehensive, single-use set of surgical drapes and tools. It is specifically assembled to support cesarean deliveries. All components are sterilized for safety and efficiency in the operating room.

Packaging : 6 Packs / Carton

Sterilization : Ethylene Oxide (EO)

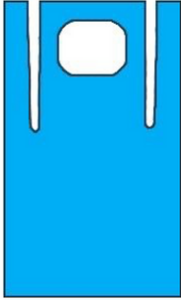

Lapa-Pack

Laparotomy Pack

The Laparotomy Pack is a sterile surgical kit designed for laparotomy procedures. The pack includes a back table cover, Mayo stand cover, laparotomy drape with collection pouch, suture bag, and X-ray detectable sponge gauze. These components ensure sterility and provide essential coverage and absorption for various surgical needs.

Packaging : 9 Packs / Carton

Sterilization : Ethylene Oxide (EO)

Plastic Apron

These aprons are designed to be practical and convenient, providing an extra layer of defense for healthcare providers.

Dimension: 0.004cm, 90 x 150cm

Material: HDPE, LDPE, CPE

Packaging: 100 Pcs/bag, 10bags/ctn

Diathermy Pencil with Tip Cleaner

The Disposable Diathermy Pencil with Tip Cleaner offers precise control and hygiene for surgeons. The included tip cleaner ensures clear cauterization and efficiency during procedures, with an ergonomic, single-use design for optimal safety and comfort.

Cable Length : 3m

Sterilization : Ethylene Oxide (EO)

Packaging: 100Pcs / Carton

Reinforced Bed Mat

Our reinforced delivery mats cover the entire bed to provide optimal absorption and protection, keeping both mother and baby comfortable during the delivery process.

Dimensions: 102 x 228 cm

Material: Non-Woven Fabric

Dimensions: 40 / Carton

ID Bracelet (Adult & Children)

The ID bracelets facilitate accurate identification, enabling healthcare professionals provide personalized care.

Dimension: One Size Fits Most

Material: PE

Umbilical Cord Clamp

The Umbilical Cord Clamp is a sterile, single-use device designed for safe and secure clamping of the umbilical cord immediately after birth. The clamp is equipped with grooves and a lock that stays closed to prevent any cord bleeding once applied. It ensures a clean and safe separation between the newborn and placenta.

Dimension : One Size Fits Most

Material : PE

Hand Towel

The hand towels are highly absorbent and used in operating rooms for hand drying by medical staff to maintain aseptic conditions during procedures.

Dimensions: 30 x 40 cm

Material: Non-Woven Fabric

Nurses Cap

Disposable nurse caps are essential for maintaining a sterile environment in surgical settings, designed to securely contain hair and minimize the risk of contamination. These caps are lightweight, breathable and are made for single-use to ensure optimal hygiene.

Dimension: One Size Fits Most

Material: PE,SMS,CPE,PP

Surgeons Cap

The Surgeon's Caps are used in surgical procedures to maintain a sterile field by securely containing hair. Its snug fit and adjustable design ensures comfort and reliability for the surgeon, while the disposable nature upholds hygiene standards.

Dimension : One Size Fits Most

Material : PE,PP,SMS,CPE

Isolation Gown

The Disposable Isolation Gown offers high-quality protection and comfort in healthcare settings. Made from breathable material, it features long sleeves with elastic cuffs and ties at the neck and waist for secure wear, ensuring effective infection control.

Dimensions: One Size Fits Most

Material: PP, SMS, PE, CPE

Shoe Cover

The disposable shoe covers slip easily over footwear, providing a barrier against contaminants. They are made from durable, lightweight material for optimal safety, comfort and convenience.

Dimensions: 35 x 45 cm

Material: PP,SMS,PE,CPE

Reinforced Sterile Gown

The disposable Reinforced Sterile Gowns are critical attire for surgical procedures, offering a high level of protection with a sterile barrier against potential contaminants. These single-use gowns are designed for both safety and comfort, ensuring a sterile environment in the operating room.

Size : L, XL

Dimension: One Size Fits Most

Material: Non-Woven Fabric

Surgical Gloves (Sterile)

The Sterile Surgical Gloves are essential for maintaining asepsis during operations. These gloves are sterilized, form-fitting, and provide high tactile sensitivity, ensuring both protection and precision for healthcare professionals.

Size: 6.5, 7.0, 7.5, 8.5, 9.0

Material: Natural Latex

Hospital

Benefits of Disposable Consumables in Healthcare Facilities

Enhanced Infection Control :

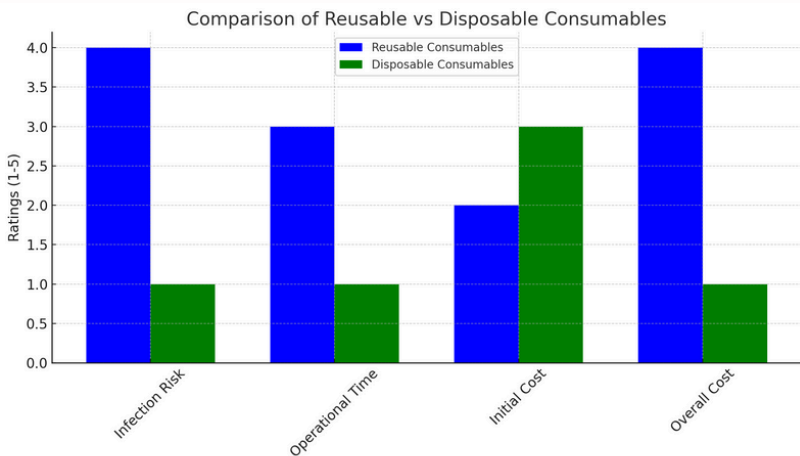

Disposable consumables, being single-use, significantly reduce infection risk compared to reusable items, which can harbor pathogens even after sterilization.

Improved Operational Efficiency :

Disposable items streamline operations by eliminating the need for cleaning and sterilization, saving time and reducing workload on support staff.

Cost-Effectiveness :

Although the initial cost of disposable consumables may seem higher, the overall savings are substantial when considering sterilization, labor, and potential infection-related costs.

Your Journey to Effective Healthcare Solutions Begins Here

ONYX CARE
LTD

Key Compliance Requirements

Sterility Assurance :

Products are sterilized using validated processes to ensure they are free from viable microorganisms.

Biocompatibility :

Materials used in surgical gowns and non-woven towels are biocompatible, meaning they should not cause any adverse reactions when in contact with the skin.

Barrier Performance :

Products provide an effective barrier against fluids and microorganisms to protect both the patient and healthcare personnel.

Strength and Durability :

Products are durable and able to withstand the stress of use without tearing or compromising their barrier properties.

Comfort and Fit:

Gowns are comfortable to wear for extended periods and should not restrict movement.
